

Transition to Unit 4

Units 1 – 3 (Revolutionary)

New thoughts about... (everything) all inclusive

“Hey, wait a minute” leads to a whole new conception of things: (Man, his world, his place in that world)

Unit 4: (Revolutionary)

New thoughts about... *HOW* to think about... (everything) all inclusive

“Hey, wait a minute”

questions -> doubts -> challenges = SOMETHING NEW (there is no progress unless there is deviation)

Basically, a focus on reasonable, rational, and logical thought processes to reach reasonable, rational, and logical thoughts

methods influence results (if -> then -> if -> then...)

the logical thought process based on a discovery and understanding of *NATURAL LAWS* which can then be applied to actual life experiences
